PROFESSIONAL SUMMARY

Motivated student with a strong foundation in programming, data structures, and web development. Proficient in languages such as Java, Python, and C++. Eager to apply academic knowledge in a real-world setting through an internship. Possesses strong problem-solving skills, a quick learning ability, and a passion for technology. Seeking an opportunity to gain hands-on experience and contribute to innovative projects.

EDUCATION

**Bachelor of Technology in Computer Science Engineering with specialization
Cybersecurity and Digital Forensics**

VIT Bhopal University

2022-2026

CGPA: 8.24

SKILLS

Programming Languages: Python, Java, C++

Django Framework

Computer Networking

Cybersecurity

Database Management

PROJECTS

Smart Poultry System: AI-driven poultry disease detection system leveraging excreta analysis and temperature data to identify early signs of infection, improving response time and flock health management.

Cybersecurity lab: Built a cybersecurity lab environment utilizing Wazuh for real-time threat detection and automated alert notifications, enhancing incident response capabilities.

Network Packet Analyzer: A simple network packet analyzer that extracts and displays geolocation data of source and destination IP addresses for basic traffic analysis.

CERTIFICATES

Python Essentials I and Python Essentials II, Cisco Networking Academy

Basics of Computer Networking, Cisco Networking Academy

The Bits and Bytes of Computer Networking, Google
